PROFESSIONAL EXPERIENCE

Jio Platforms Limited (Reliance)

Cloud and Devops Trainee

During my internship, I was actively engaged in configuring and overseeing CI/CD pipelines utilizing Azure DevOps. Working closely within the CI/CD team, I gained valuable hands-on experience in deploying automation strategies to streamline software development processes. This included setting up continuous integration workflows to ensure code quality and continuous deployment pipelines for efficient release management.

CYGONEX

Cloud and Devops Trainee

During my internship at Cygonex, I was actively involved in configuring and managing cloud infrastructure using AWS. Collaborating with the DevOps and cloud teams, I gained hands-on experience in deploying and optimizing cloud solutions. This included setting up and maintaining Jenkins CI/CD pipelines, automating infrastructure deployments with Terraform, and managing AWS services such as EC2, ECS, and EKS for testing. I also managed Microsoft 365 workspaces, maintaining Entra ID for user authentication and secure access, while monitoring AWS payments and optimizing cloud resource usage for cost efficiency.

CERTIFICATIONS

Microsoft Azure Fundamental (AZ-900)
CERTIFICATE

Udemy Certified Python Course

PROJECT

Image Forgery Detection Using Deep Learning
