

ESWAR KRISHNAMOORTHY

DEVOPS ENGINEER | CLOUD INFRASTRUCTURE | KUBERNETES | AUTOMATION

K.Eswar7045@gmail.com | +91 99446 82249 | linkedin.com/in/eswarcloudanddevops | github.com/eswarr15 | eswarr15.github.io/portfolio/

PROFESSIONAL SUMMARY

Certified Kubernetes Administrator (CKA) with 2+ years of hands-on experience across Kubernetes/AKS, Microsoft Azure, AWS, OCI, CI/CD automation, cloud migration, disaster recovery, observability, and hybrid cloud/on-premises operations. Builds repeatable delivery workflows with Linux, Docker, Azure DevOps, Python, REST APIs, secure service connections, and AI-assisted investigation with human review.

TECHNICAL SKILLS

Cloud: Microsoft Azure (AKS, Blob Storage, Key Vault, Azure Monitor), AWS (EC2, ECS, ECR, WorkSpaces, VPC), OCI, Hostinger

Containers & Infrastructure: Kubernetes, AKS, OpenShift/OKD, Docker, Podman, Terraform, Ansible, Linux, Nginx, hybrid environments

CI/CD & DevOps: Azure DevOps, Azure Pipelines, Jenkins, GitHub Actions, GitLab CI/CD, YAML, multi-stage delivery

Monitoring & Security: Grafana, Prometheus, Mimir, Loki, Azure Monitor, HashiCorp Vault, Key Vault, SonarQube, Trivy, OWASP

Networking: DNS, load balancing, SSL/TLS, VPN, NAT, subnets, security groups, Microsoft Entra ID

AI & Automation: Python, Bash, REST APIs, MCP concepts, ChatGPT, Claude, Cursor and Devin-style workflows with controlled access

PROFESSIONAL EXPERIENCE

DevOps Engineer — SWIFFYLABS | September 2025 – Present

- Support SaaS environments across staging, UAT and production, covering setup, configuration, deployments, monitoring and operational troubleshooting.
- Administer Kubernetes/AKS and OKD workloads across hybrid cloud and on-premises environments; all public descriptions are deliberately generalized.
- Supported Azure account migration checks, access validation, disaster-recovery readiness, deployment validation and recovery exercises.
- Build and maintain multi-stage Azure DevOps pipelines with YAML, Python automation, controlled promotion and least-privilege service connections.
- Investigate platform health using Grafana, Prometheus, Mimir, Loki, Azure Monitor and secure secrets workflows with Vault and Key Vault.

Cloud and DevOps Engineer — CYGNONEX INNOVATIONS (CYGNOZ) | December 2024 – August 2025

- Built and deployed containerized microservices across multi-stage environments using GitHub, Jenkins, Docker and CI/CD pipelines.
- Configured AWS EC2, ECS, ECR, load balancers, Global Accelerator, TLS certificates and production deployments.
- Integrated secure API delivery and vulnerability/code-quality checks using SonarQube, OWASP and Trivy.

Cloud and DevOps Intern — CYGNONEX INNOVATIONS (CYGNOZ) | August 2024 – November 2024

- Deployed multiple client applications using GitHub Actions, API gateways and Docker without exposing client-specific details.
- Supported cloud access, Microsoft Entra ID, AWS WorkSpaces and cloud-cost activities.

Cloud and DevOps Intern — JIO PLATFORMS LIMITED | October 2023 – June 2024

- Supported Azure DevOps CI/CD operations, service requests, failed-build reporting, Grafana reports and Scrum request tracking.

CERTIFICATIONS AND EDUCATION

Certified Kubernetes Administrator (CKA) — Completed March 1, 2026 | **Microsoft Azure Fundamentals (AZ-900)** | **AWS Educate** — Cloud Operations, Compute and Networking

B.E. Computer Science and Engineering — E.G.S. Pillay Engineering College, Anna University | 2020–2024 | CGPA 8.04/10 | Languages: Tamil, English

Public résumé: employer names identify work history only. No client names, credentials, proprietary documentation, internal topology, hostnames, account IDs or production data are included.
